Prime Consultants
 Fowler, Bauld & Mitchell Ltd.
Mechanical & Electrical Consultants
 F.C. O'Neill, Scriven & Associates Ltd.

A 10,000 seat arena and exhibition facility hosts professional hockey, concerts, conventions, trade shows, and acted as the communications centre for the 1996 G7 Conference. When originally designed, the lighting system literally set the current standard for lighting sports events for TV broadcast. Innovative calculation techniques allowed for greater precision, resulting in better lighting for less cost.

CORPORATE BOXES

Total Number 33
Total Construction Cost \$2,500,000.00
Project Completion 1998
Construction Manager
 H.W. Corkum Construction Co. Ltd.
Prime Consultants
 Fowler, Bauld & Mitchell Ltd.
Mechanical & Electrical Consultants
 F.C. O'Neill, Scriven & Associates Ltd.

In 1996, the Metro Centre added 13 corporate boxes at the south end of the Facility. As a result of the marketing success, an additional 20 corporate boxes were added along the east side. The vantage point of the boxes makes them the best seat in the house.
